

## Linear Metal Steel Wire Straightener Fully Automatic CE Approved

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Jin Hongxiang
- Certification: CE
- Model Number: JZ2-5
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Export safety wooden case
- Delivery Time: 5-10 days or negotiation
- Supply Ability: 50 Set/Sets per Month

#### Product Specification

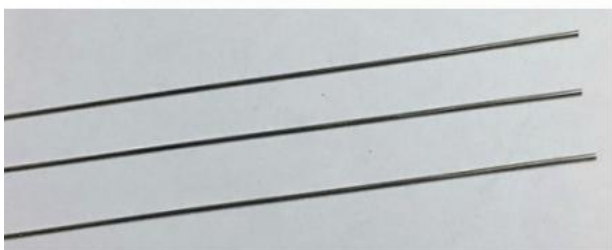

- Product Name: Straightening And Cutting Machine
- Core Components: Motor, Cast Iron, Machined Parts
- Power: 0.75+1.5KW
- Warranty: 1 Year, 1 Years
- Key Selling Points: Fully Automatic, Low Price, Small Straightening Length Error,
- Applicable Industries: Widely Used In Hardware, Machinery, Electrical, Instrumentation, Construction And Other Industries.
- Weight (KG): 125
- Control System: Fully Automatic, Low Price, Small Straightening Length Error,
- Highlight: **Linear Steel Wire Straightener, Fully Automatic Steel Wire Straightener, CE Metal Wire Straightener**

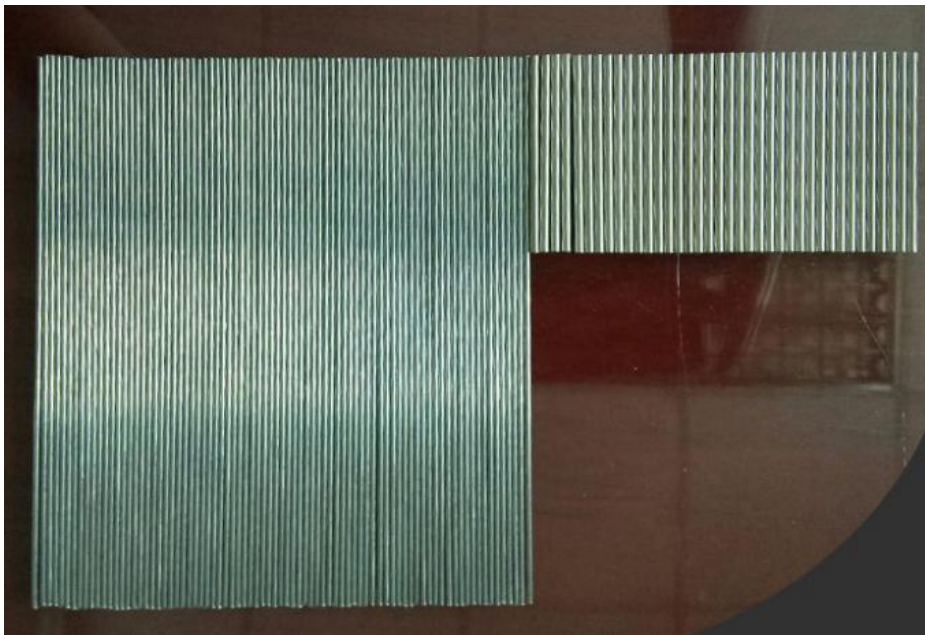

## Product Description

### Straightening Machine, Linear Machine

#### Other names

Straightening and cutting machine,  
straightening machine, linear machine,  
cutting machine,  
straightening machine,  
1-2.5MM straightening machine,  
2-5MM straightening machine,  
5-9MM straightening machine,  
small straightening machine,  
medium straightening machine,  
large straightening machine,

## Performance Characteristics

1. It is suitable for straightening and cutting carbon steel wire, stainless steel wire, iron wire, non-ferrous metal wire with high hardness, etc.
2. Reasonable structure, beautiful appearance and low noise.
3. Mechanical accessories are well made, exquisitely assembled and have long service life.
4. It is divided into various models, large, medium and small, and the input voltage is 380V.
5. Automatic straightening and cutting, wire feeding speed 16-28m / min, length error plus or minus 0.2mm.
6. Cutting length range: 50-2000mm. All copper motor.
7. Main configuration: 1 main machine, 2m fixed length rod and 1 feeding line frame.
8. Vulnerable accessories: 2 cutters, 2 wire holes and 2 sets of straightening blocks (nodular cast iron).

### Detail display

1. CNC precision turning and milling are standardized from each large head, large rotating shaft, slider to small cap. Good coordination of the whole machine to ensure stable operation of the machine.

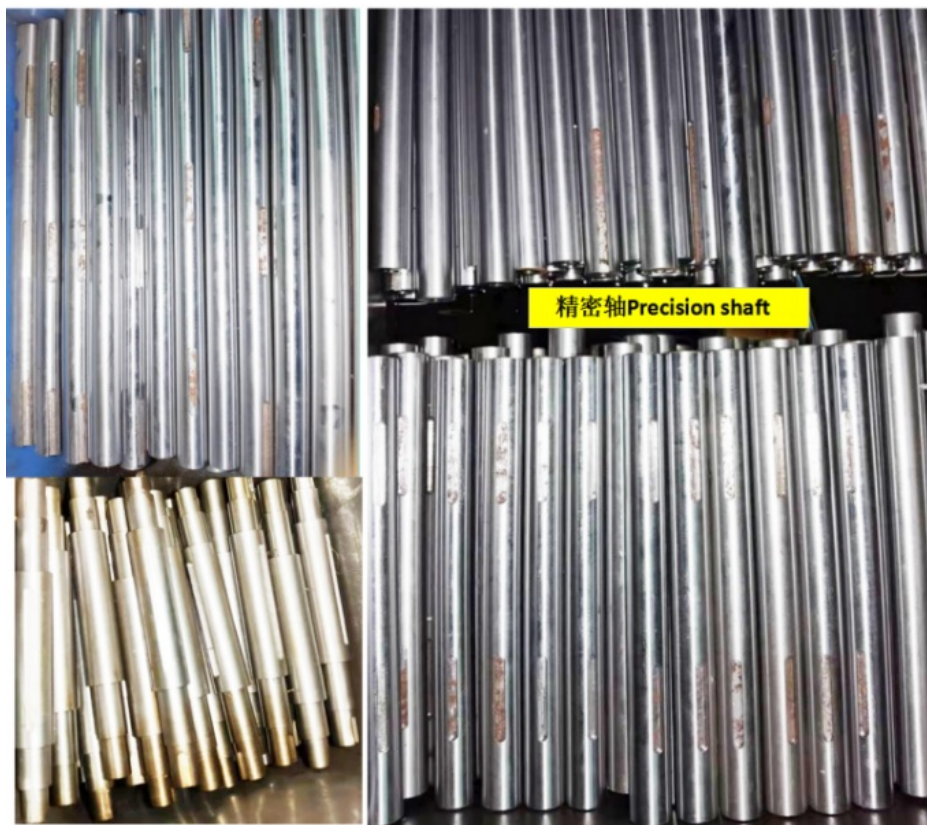

2. All kinds of shaft cores are CNC lathes, which are hardened by special process and have smooth surface. Durable and good transmission. Uniform size standard, better matching performance of the whole machine

3. Cutters, wire holes and straightening blocks are wearing parts. It needs to be replaced at any time. The cutter is welded with tungsten particles and is durable. Wire hole, hardened by special process, durable. Straightening blocks can be selected according to different materials and surface requirements. There are bakelite, tungsten steel and ductile iron.

**Cutters,**

**wire holes**

**straightening blocks**

4.The reverse switch can make the straightening operate forward and backward, and avoid the cost of material transfer when debugging the machine..

Technical parameter					
Model	JZ1-2.5	JZ2-5	JZ5-9	JZ9-12	JZ12-16
Max.diameter	φ2.5mm	φ5mm	φ9mm	φ12mm	φ16mm
Max.length	1000mm	2000mm	2000mm	2000mm	2000mm
Straighten deliver link speed	16-25m/min	16-25m/min	16-25m/min	15-18m/min	15-18m/min
Power	0.55+0.55kw	0.55+1.5kw	1.5+5.5kw	3+7.5kw	3+10kw
Weight	140kg	250kg	450kg	600kg	800kg

Display after straightening the iron wire

**Our purpose:**  
no matter new or old models, we must achieve the ultimate!!  
**Warm tip:**  
our products are constantly upgraded and improved.  
If the color or structure changes, the real object shall prevail.
