

Five Gun Argon Automatic Arc Welding Machine 380V High Stability

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Jin Hongxiang
- Model Number: JLH
- Minimum Order Quantity: 1 set
- Price: consult
- Packaging Details: Export wooden case
- Delivery Time: 5-10 days or negotiation
- Supply Ability: 100 Set/Sets per Month

Product Specification

- Machine Type: Automatic Gas Shielded Welding
- Core Components: PLC Programming, Touch Screen Display
- Key Selling Points: Exquisite Design, Precise Processing,
- Weight (KG): 200
- Voltage: 380V
- Usage: Spot Welding Or Pull Welding
- Feature: Fully Automatic
- Advantage: High Speed Stability
- Highlight: **Five Gun Automatic Arc Welding Machine, High Stability Automatic Arc Welding Machine, 380V Arc Argon Welding Machine**

Product Description

argon welding machine five gun automatic welding machine

Multiple names

argon welding machine five gun automatic welding machine,
printer tray electrolytic plate automatic welding machine,
copier tray electrolytic plate automatic welding machine

Performance characteristics

This welder is a special machine, which is specially used for welding the electrolytic plates of printers and copiers. Among the five welding points, five welding guns of one machine can weld at the same time, saving time and labor, fast and convenient.

application

Printer, copier tray electrolyzer

Control system

Mitsubishi PLC programming+a set of man-machine interface.

Applicable material

Non ferrous metals such as iron, aluminum, stainless steel, high carbon steel and electrolytic plate

Adaptive power supply

Argon arc welding machine

Welding workpiece display

Our tenet:

Every equipment will do better!!

Tips:

Our products are constantly upgraded and improved. If the color or structure changes, the actual object shall prevail.

III FACTORY OVERVIEW

Dongguan Jinghongxiang Automation Equipment Co., Ltd.
